

HOMEWORK CONTRACT

Wonders Extended Day programs provide children with an opportunity to work on their homework each day. Our educators are able to assist children with their homework, but they will not tutor the children in our programs. While we understand the time constraints many families face each evening, we do not require a child to finish his/her homework before going on to another activity.

Wonders will use this homework contract to remind your child of the agreement he/she has made with you regarding homework hour. We want to encourage your child to take a responsible role in managing his/her homework.

Homework Hour takes place for one-hour Monday – Thursday at each of our program locations. Times may vary depending on school and programs schedules. If you have additional inquiries, please speak with your Program Director.

Please discuss the following options with your child and decide which schedule works best for you:

- ☐ I will do homework for 30 minutes each day.
- ☐ I will do one hour of homework each day.
- ☐ I will decide each day whether or not to do my homework.
